To Our Valued Customers and Families,

We would like to take a moment to thank you for allowing our family, H. C. Wood Memorials, to help in the process of commemorating and remembering a member of your family.

Currently, we are updating and informing all our customers of the unprecedented time we are experiencing in our Business and Industry. The 2020 shutdowns, labor shortages and all over supply chain break downs the country is experiencing is also affecting our industry as well.

Monument companies like ourselves across the region are experiencing high volume of new memorial purchases for family members who recently or previously passed away prior to 2020. Currently newly purchased Domestic memorials that would be a 3-4 month timeline is now 5-6 months in a lot of cases. Imported black granites and other colors of granites that need to be shipped from overseas, that would normally be 5-6 months are now running 8-10 months in many cases.

Our cemetery Letter Cutters that we Sub - Contract with are also working tirelessly to complete on site inscription orders. They are experiencing material shortages and high volume of work. They are completing work orders that normally would be 12-14 weeks at a 18-20 week timeline. Some of this is due to cemeteries not being able to process the required permits due to their high volume and lack of staff as well.

We are trying our best to keep an eye on these current orders and track them through the stages of production.

Your patience, just like in all our day to day lives, is greatly appreciated.

Best personal regards,

Harvard C. Wood, IV
H. C. Wood Memorials, Inc.
